## Expressions

I'm a YP from the UK. There aren't many YPs where I live so it has been great to hear from other YPs around the world and to be able to offer my talents and write about a few things myself. I have enjoyed hearing about all the innovative ways of doing propagation. I'm glad there is a means for YPs to get to know more about the way magic happens in other places.

Wow ... that's fantastic news and it truly is inspiring, thanks a tonne for sharing it with us...  
*Hemal Singapore*

Truly speaking ... words fail to describe the joy which we enjoyed during this process of organising events.... and making new people aware of His message...

The following stories are edited excerpts from [www.ypinews.co.uk](http://www.ypinews.co.uk), an international message board for young people who love to spread the word about Maharaji and Knowledge - get online and get inspired!

## Where is the love? L O N D O N , U K

Tonight we had an intro event that was unbelievable! We showed the music video *Where is the love?* by The Black Eyed Peas then showed *At Ease With Yourself*. We finished with *A New Dawn*. A month ago we put fliers for our event with the *Give Peace a Chance* article in specially prepared packs, and distributed them at a peace music

festival. Tonight 7 people who got this flier turned up in a group together. They had waited over a month to come to this event and their enthusiasm was evident when they arrived.

After the show many people were congratulating us on the videos. One guy said 'Liked it? I Loved it!!!!'. He said he was going to bring his mum

and kids to the next one! He felt music was the most important way for young people to communicate and that the Black Eyed Peas song shows what people are feeling. They all took materials and seemed really impressed and thanked us on the way out. All in all it feels like we tried something we never did before and it felt so much better! It was perfect!

## More than 100%... K o l k a t a , I n d i a

*The first event was the "Introductory: Youngsters Meet " 48 new people got the opportunity to hear His Message ... It was "Fulfillment" in Hindi followed by "Within You"-English which did the magic ... The second one was the "Housewife Special" which was a Blaster ... u can take it this way that we had a result more than 100% ... As there were 65 invitees, but it was found that after filling up the 65 seats*

*present in the hall, there were few who had to stand and listen ... And we the Premies had to come out of the hall... To have a check that the people whom we are inviting are really getting the taste of real joy we organized the 3rd event ... We had 25 invitees and all of them were found to be present ... This was a satellite broadcast... On the 13th of this month, Sunday we had about 45 invitees with the Principal Sir of my*

*last attended school as a chief guest ... Sir highly appreciated our approach and too enjoyed the program a lot ... U know he was amazed to know that Maharaji had started speaking at the age of three ... He was found to be awakened by HIS message ... Before leaving he guided us how to go forward and organize a big program of this sort ... !!! ... His words too were addition to inspiration...*

It is nice to be a part of this initiative and to be sharing views, experiments and experiences of all kinds this way. I congratulate the thought and initiative of all those who spent time and energy in realizing this platform for all. Hope to hear more from all of you folks out there working on new dynamics of music, art and culture!

It made me feel that when Maharaji DOES eventually come to Australia to do public events that we should try and invite the whole of Australia so they can all have their socks blown off like the Italians did last Saturday. Woo-hoo!

## It's only the start!

### PORTUGAL

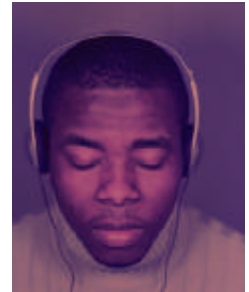

#### First event in the University:

We had 20 persons for a room of 140!!! But the response of the people that were there was lovely to see and feel! I had a great Time! :-)))

#### The next university event:

It was very nice ...we had 8 people that where from the other program. I was the MC... it was a very nervous experience!

But it's only the start!!!

## Forma parte de su magia

### CARACAS, VENEZUELA

Last night, we had a beautiful introductory event presenting to M and their message in Caracas-Venezuela. 3 videos were presented. This event was too much! All the present enjoyed the videos very much and the event was very fresh and dynamic...

The 3 videos that were presented yesterday were copied for the

sale and all the copies were sold and there were people that requested copies... Next week we will have an event for people interested in the same place and at the same hour and we are thinking of using other materials downloaded from the website ypinews...

## Damn, word gets around!

### PROVIDENCE, USA

Our first Soulchill event is eight days away and is seems to be the talk of the town. Lots of PWKS and Aspirants are working day and night to ensure the success and vibe of the peace bomb we are about to drop upon the weary domes of the good people of Providence, Rhode Island, USA.

The 3 hottest DJs/producers around, the nicest venue in the city, big and open with lots of leather sofas everywhere, and of course, the message of peace. T-shirts are being printed, flyers/posters are everywhere, we have a two video camera crew for documentation and

ads in newspapers and radio.

I got in the car the other night and turned on the radio and the DJ was like, "Prem Rawat has a message of peace to share with the world, May 19th with DJs Shane, Mello, TMemry etc.", I was like "Damn, word gets around here."

## Knowledge, up for grabs! SYDNEY, AUSTRALIA

A very special event happened in Sydney, Australia. Maharaji's message was presented in a nightclub environment amongst the groovy tunes of a DJ from the local radio station.

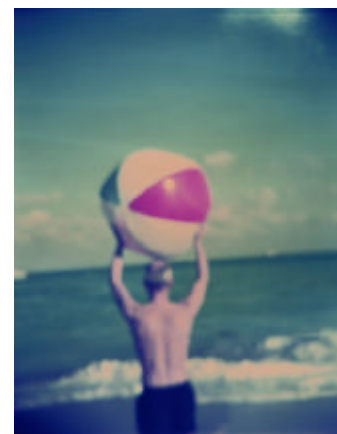

The event ran from 7pm -11pm. To walk in to the nightclub that evening was a unique experience... to say the least. A small tear

gathered in the corner of my eye, as this was definitely the beginning of a new era. Finally I had a place that I felt comfortable inviting my friends to.

After arriving fashionably late at 8.20pm (Sydney is a very funky town and everything has to happen just right!) my friend and I got a beer and sat down to enjoy 20mins of short videos

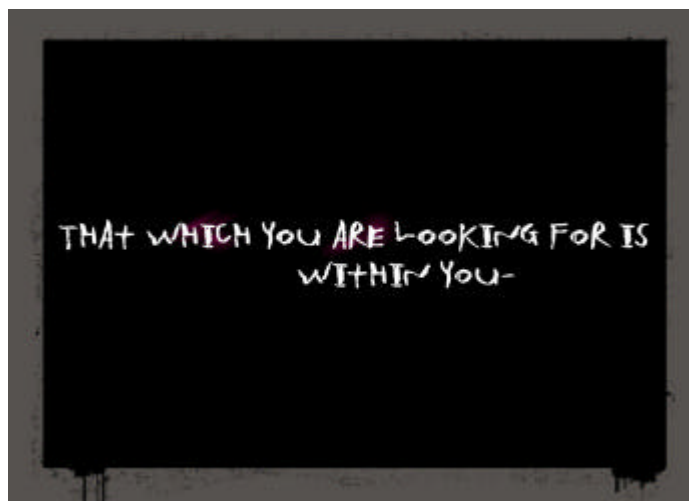

about Maharaji, his story, and what he has put up for grabs (Knowledge).

I know this has been happening overseas in places and it was just a great feeling to see it unleashed in Australia. For me personally it was a triumph because my friend was sitting watching intently at 10.45pm when the last video was shown - Truly inspirational.

## What's hot?

HERE'S A SNEAK PREVIEW OF  
A NEW WEBSITE COMING  
SOON!

In this world filled with confusion, a group of students have come across something clear and quite remarkable. This site is dedicated to our passion to share this unique gift with our peers.

A gift of understanding and clarity, a gift called 'Knowledge'. Four physical techniques that are used to experience a consciousness within, when the world outside

offers nothing but ambiguity.

A friend of ours has dedicated his life to sharing these techniques with the world. This is your introduction to him and this gift which has profoundly changes our lives.
